

Dear Friends,

I am sending this message out to you in hopes that you will help support my efforts to bring my son, Remly, back to his home community of Hampstead. Remly has severe autism that causes him to physically harm himself. In June of 2001, I was faced with the heart wrenching reality that Remly had to move away from home and go somewhere to get the support he needed to keep him safe.

I am fortunate that I am able to visit Remly once a week, even though the 6 hr round trip drive is taxing. I desperately miss him, and am ready and willing to do whatever is needed to bring him closer to home.

In 1997, I started a non-profit organization called A.S.A.P. (Autism Spectrum Alternative Programs) to bridge the gap of summer school services for children with autism in our area. We have been in operation for nine years now. This service is offered to children in our community free of charge and has helped numerous children with autism and their families over the years. This agency, A.S.A.P., will operate a group home in the future, to be called Rainbow House, which will be located on Island Creek Road, Hampstead. This project will provide support for the most severely affected kids in our area who have autism and will allow them to live in their own community.

Additional tax deductible donations for the construction of Rainbow House will be greatly needed and appreciated. If you can help in any way or want more information, please visit our website at www.asapcares.com or leave a message at 270-5499.

Thank you,

Judy Clark
